

THE EDUCATIONAL MUSEUM

17 OCT 2013

BENAKI MUSEUM | PIREOS STREET ANNEX
AUDITORIUM

INNOVATIONS AND TECHNOLOGIES
TRANSFORMING MUSEUM EDUCATION

The museum has expanded from its origin as a repository of artifacts and natural history finds to become something much bigger: an open university, a community center, a place for social events, a monument to civic pride.

For the third annual conference on museum practices, curators, administrators, educators and artists are meeting to talk about new developments in the field of museum education in Europe and North America.
